

MOBILE HEALTH CLINICS IN MOZAMBIQUE

The Mozambique Initiative is partnering to extend access to healthcare in Mozambique. Building from the strength of the hospital in Chicuque, mobile health clinics leaving the Center of Hope bring medical care and consultation to remote communities. The mobile clinic often set up in school classrooms in order to attend the patients.

The clinic provides maternal and child health care, vaccinations, HIV testing, screening and treatment for other diseases. Health education sessions take place through the mobile clinic in Mabumbuza and other surrounding communities of Massinga and Morrumbene districts. **Your gift offers access to healthcare for people across Mozambique.**

ABOUT THE MOZAMBIQUE INITIATIVE

The Mozambique Initiative seeks to walk slow, listen and create equitable partnerships that meet the greatest needs of partner communities. Learn more about our work and how you can get involved at www.mzinitiative.org
